DUCTSTAT® TEMPERATURE SENSITIVE SWITCH™ — DS100

The DuctStat® simplifies installation of Suncourt In-Line Duct Fans™ by eliminating electrical connections at the furnace. It is intended to control the automatic On/Off operation of In-Line Duct Fans installed in the ductwork of forced air distribution systems.

- 5 Amp maximum load
- Equipped with replaceable 5 Amp fuse to protect the electronic circuitry from overload or short circuits
- 120V
- UL® Listed
